STEFANO MURGIA

As a sound-artist, Stefano Murgia searches for new methods of creating and presenting music. After having studied to become a sound engineer, he continued his research in the field of sound. While studying ArtScience at the Royal Academy of Art in the Hague, Murgia had the chance to research sound in both philosophical and scientific approaches. Here, he started to make his own instruments and speakers and drew inspiration from the work of Moondog, Harry Partch, among others. In the past years, Murgia focussed on topics such as 'sonic architecture' and 'acoustic ecology'. Through his research, he got inspired by the source-path-receiver concept. Where this concept normally gets applied to deal with environmental noise, Murgia uses this model as the base for his projects. He interprets the source-path-receiver interface as follows: The creation of the sound source, the location where the source will be, and the way in which it will be presented and perceived.

EDUCATION

- 2022 - Sound-art scholarship Hochschule für
2023 Bildende Künste Braunschweig diploma
- 2022 - Webinar Series on Underwater Acoustics
2022 Discovery of Sounds in the Sea
- 2021 - Music Lab Horst Festival
2021
- 2021 - Handbook for Acoustic Ecology Barry Truax
2021
- 2020 - ISAAC31 KU Leuven
2020
- 2019 - GUSAC - Gutenberg Sound Art Academy
2019 GUSAC
- 2013 - ArtScience Den Haag, Koninklijke Academie
2017 van Beeldende Kunsten diploma
- 2009 - Audiovisual Engineering Deltion College,
2013 Zwolle diploma

EXHIBITIONS

- 2020 Into the Great Wide Open Vlieland,
Netherlands Acousmatic Space Studies
#2: The center of mass
